Independent Auditors' Report

To the School Board Cedarburg School District Cedarburg, Wisconsin

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cedarburg School District ("District") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2015, and the respective changes in financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The financial information listed in the table of contents as other supplementary information, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the State Single Audit Guidelines, and are also not a required part of the basic financial statements.

The financial information listed in the table of contents as other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Change in Accounting Principle

During the year ended June 30, 2015, the District adopted new accounting guidance, GASB Statement 68, *Accounting and Financial Reporting for Pensions*. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 06, 2015, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

November 06, 2015 Milwaukee, Wisconsin

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015

To the Board of Education Cedarburg School District

The discussion and analysis of the School District of Cedarburg's financial performance provides an overall review of financial activities for the fiscal year. The analysis focuses on the school district's financial performance as a whole. It should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

At the close of fiscal 2015, the assets of the District exceeded liabilities by \$31,385,350 (*net position*). For the year, net position increased by \$8,109,935. Of that amount \$5,758,241 was a result of recognizing the District's proportionate share of the net pension asset for the Wisconsin Retirement System (WRS), as required by GASB Statement No. 68.

Total governmental activities revenues were \$35,477,307; including \$21,452,944 of property and other taxes, \$9,020,032 of federal and state unrestricted aid, \$69,397 of miscellaneous revenues, \$2,431,672 of grants and contributions, and \$2,503,262 of charges for services. Total governmental activities expenditures were \$33,223,772; including \$19,106,413 for direct instruction.

The following events took place during fiscal 2015:

- A conservative approach to the budgeting process continues to place the District in a positive financial position. A budget forecasting model is used in the budget development process which reviews two years of historical data, and looks at current year budgeted data to provide budget projections for an additional four years. The Personnel and Finance Committee met monthly to discuss the budget development process. Changes to revenue and expenditure estimates were tracked on a Budget Projection and Reconciliation spreadsheet.
- The solid financial position of the District allowed for continuing maintenance and upgrade of the physical plant. In 2014-15, the District continued its program of roof repairs and boiler replacements. At Webster, a redesign of the parking lot was completed and a new sidewalk was added for ease into the building and student safety. Technology implemented 1:1 Chromebooks for grade 5 and 6 and upgraded the network infrastructure.
- The District retained its Aa1 rating from Moody's Investors Service. This high bond rating is an indicator of strong financial stability and enables the District to borrow at lower rates whereby a savings would be realized, should borrowing be needed.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015 (Continued)

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements are comprised of 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition, other information supplementary to the basic financial statements is provided.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

- The Statement of Net Position and Statement of Activities provide information on a district-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful long-term information as well as information for the just-completed fiscal year.
- The remaining statements are *fund financial statements* that focus on individual parts of the District. Fund statements generally report operations in more detail than the District-wide statements.

The notes to the financial statements provide further explanation of some of the information in the statements and provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

Required supplementary information further explains and supports the financial statements by including a comparison of the District's budget data for the year.

The major features of the District's financial statements, including the activities reported and the type of information contained, is shown in the following table.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015

(Continued)

Major Features of the District-wide and Fund Financial Statements

		Fund Finan	cial Statements
	District-wide Statements	Governmental	Fiduciary
Scope	Entire district (except fiduciary funds).	The activities of the District that are not proprietary or fiduciary, such as instruction, support services, debt service, capital projects, food service and community services.	Assets held by the District on behalf of someone else. Student and other organizations that have funds on deposit with the district are reported here.
Required financial statements	 Statement of Net Position. Statement of Activities. 	 Balance Sheet. Statement of Revenues, Expenditures and Changes in Fund Balance. 	 Statement of Fiduciary Net Position. Statement of Changes in Fiduciary Net Position.
Basis of accounting and measurement focus	Accrual accounting. Economic resources focus.	Modified accrual accounting. Current financial resources focus.	Accrual accounting. Economic resources focus.
Type of asset and liability information	All assets and liabilities; both financial and capital, short-term and long-term.	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter. No capital assets or long-term liabilities included.	All assets and liabilities, both financial and capital; short-term and long-term. These funds do not currently contain any capital assets, although they can.
Type of inflow and outflow information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability are due and payable.	All additions or deductions during the year, regardless of when cash is received and paid.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015 (Continued)

DISTRICT WIDE STATEMENTS

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. In 2015, the District adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68). This statement requires the District to recognize its proportionate share of the net pension asset or liability, deferred outflows and deferred inflows of resources, and related expenses from its participation in the Wisconsin Retirement System. The result of this statement includes recognizing a net pension asset for the defined benefit plan and related deferred outflows of resources. The effect of implementing this statement resulted in a restatement of beginning net position as detailed in Note 7 to the financial statements.

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Activities reports all revenues and expenses used to support the District. The Statement of Net Position reports all assets and liabilities available to support District activities. The two district-wide statements report the Districts *net position* and how they have changed. Net position, the District's assets plus deferred outflow of resources less liabilities, are one way to measure the District's overall financial position. Increases or decreases in the District's net position are one indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is properly using certain revenues (like capital project funds).

The District has two kinds of funds:

- Governmental funds All of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental funds information does not report on long-term commitments as is reported on the district-wide statements.
- *Fiduciary funds* The District serves as a trustee, or fiduciary, for student organizations. The assets of these organizations belong to the organization and not the District. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

Management Discussion & Analysis

June 30, 2015

(Continued)

Table 3 presents the cost of the major district activities. The table reports each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost reflects the financial burden that was placed on the District's taxpayers by each of these functions.

Table 3Net Cost of Governmental Activities(in thousands of dollars)

Unallocated Depreciation	1,173	1,179	-0.51%	1,173	1,179	-0.51%
	33,224	34,175	-2.78%	28,289	29,113	-2.83%

Note: totals may not add due to rounding.

The cost of all governmental activities in 2014-15 was \$33,223,772. Individuals who directly participated or benefited from a program offering paid for \$2,503,262 of costs. Federal and state governments and other organizations subsidized certain programs with grants and contributions of \$2,431,672. The net cost of governmental activities (\$28,288,838) was financed by general revenues of the District (\$21,452,944 property and other taxes, \$9,020,032 federal and state unrestricted aid and \$69,397 other).

(Continued)

The composition of governmental expenditures by type is illustrated below in Chart 2.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015 (Continued)

FINANCIAL ASPECTS OF THE DISTRICT'S FUNDS

The District prepares a preliminary budget in June for the subsequent year (beginning July 1st), consistent with current state statutes and regulations. This preliminary budget is approved in July and presented at the District's Budget Hearing in August. In October, the budget is amended and a final tax levy is approved, when official enrollment, certification of general state aid and equalized value is received. Additional budget revisions may be made during the fiscal year to reflect modifications in state and federal grants and other changes to the budget.

The District completed the year with a total governmental fund balance of \$8,940,022 up from last year's ending fund balance of \$7,676,053.

- The general fund had an increase in fund balance of \$1,132,860. This is mainly due to the change in how the district budgets and expenses its bonus program. Previously, the total bonus was budgeted one year, accrued that same year and paid out the next year. The funds totaling \$498,180 were unexpended in 2014-15 and will now be budgeted and expended in the same year. Also, there was a planned positive balance of just over \$100,000 at the start of the 2014-15 fiscal year that was committed to fund balance to assist with stabilizing the bonus program. The remaining unexpended funds included an unfilled administrative position along with positive balances in utilities, transportation, strategic wellness, legal expense, temporary debt interest and intern budgets.
- The debt service fund had a decrease of \$8,424. The fund balance of the debt service fund will fluctuate each year based on the amount of the first payment due the next fiscal year.
- The food service program increased its fund balance by \$95,820.
- The community service fund had a decrease in fund balance of \$92,209 mainly due to a one time transfer of \$100,000 of non-levy fund balance to Fund 21 Special Revenue Trust. These funds will be used for safety and maintenance items in the Performing Arts Center.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015

(Continued)

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2015, the District had invested \$51,107,884 in capital assets, including buildings; sites and equipment (see Table 4). Total accumulated depreciation on these assets was \$23,322,713. Asset acquisitions for governmental activities totaled \$628,986. The District recognized depreciation expense of \$1,172,812. (Detailed information about capital assets can be found in Note 4 to the financial statements.)

Table 4Capital Assets(Net of depreciation, in thousands of dollars. Differences due to rounding.)

	<u>2015</u>	<u>2014</u>	Percentage Change <u>2014-15</u>
Land Building & Improvements	\$ 340 46,403	\$ 340 45,946	0.00% 0.99% 3.02%
Furniture & Equipment Accumulated depreciation Net Capital Assets	\$ 4,365 (23,323) 27,785	\$ 4,237 (22,185) 28,338	5.13% -1.95%

Long-term Debt

At year-end the District had \$11,765,000 in notes payable and bonds payable outstanding – a decrease of \$1,740,000 (12.88%) from fiscal 2014. This decrease resulted from repayments of principal. An additional \$49,911 was outstanding for retirement stipends and \$4,240 for the obligation for compensated absences. (Detailed information about the District's long-term liabilities is presented in Note 5 to the financial statements.)

Table 5Outstanding Long-term Obligations(In thousands of dollars. Differences due to rounding.)

	<u>2015</u>	<u>2014</u>	Percentage Change <u>2014-15</u>
General obligation bonds and notes Retirement Obligations Compensated absences	\$ 11,765 50 4	\$ 13,505 121 106	-12.88% -58.68% -96.23%
Net long-term obligations	\$ 11,819	\$ 13,732	-13.93%

General Obligation debt of the District is secured by an irrepealable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated for annual debt service payments.

Cedarburg, Wisconsin

Management Discussion & Analysis June 30, 2015 (Continued)

FACTORS BEARING ON THE DISTRICT'S FUTURE

Currently known circumstances that will impact the District's financial status in the future include:

- The resident count remained stable in 2014-15 but decreased by 43 resident students in 2015-16. The District is adding 4K in 2016-17 which is estimated to add an additional 62 FTEs to the student membership count. The potential impact of enrollment to class size and staffing is closely monitored as declining enrollment impacts the district revenue limit and equalization aid.
- Start-up funds may be needed for the addition of a 4K program to the District starting in 2016-17.
- The Affordable Care Act could impact future health insurance costs for the district. The District will continue to monitor trend factors in healthcare to ensure penalties are not incurred and that the approaching 2018 Cadillac tax is closely examined. The District was fortunate to have received a one percent decrease in its health insurance rates for 2016.
- The current state budget continues to provide challenges for school districts with changes to school funding of private school vouchers, special education and new fiscal requirements. The careful review and management of changes will impact how and the extent to which the Cedarburg School District is able to continue providing outstanding results for its students.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Karen Dvornik, Director of Business Services, Cedarburg School District, (262) 376-6100, W68 N611 Evergreen Blvd., Cedarburg, WI 53012.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Year Ended June 30, 2015

Total net change in fund balances - governmental funds		\$	1,263,969
Amounts reported for governmental activities in the statement of activities are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expenses.			
Depreciation expense Capital outlays	\$ (1,172,812) 628,986		
	 		(543,826)
In the statement of activities, losses on the disposal of assets are shown, whereas in the governmental funds only the proceeds on the disposal (if any) are shown.			(9,305)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.			
Bonds payable Promissory note	1,610,000 130,000		
	 100,000		1,740,000
In the statement of activities, post-employment benefits are measured by the amounts earned during the year. In the governmental funds however, expenditures for these items are measured by the			(20,000)
amount of financial resources used.			(20,909)
In the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expenses. In the governmental funds however, expenditures for these items are measured by the amount of financial resources used.			
District pension contributions Cost of benefits earned net of employee contributions	 1,209,267 (1,196,483)		12,784
Amortization reduces the balance of the respective liabilities and deferred outflows. The amortization is an expenditure in the statement of net position, but is not shown in the governmental funds.			
Unamortized discount on debt issuance	(924)		
Unamortized loss on refunding	 (268,316)		(269,240)
In the statement of activities compensated absences and retirement stipends are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.			74,987
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.			5,075
		¢	
Change in net position of governmental activities		\$	2,253,535

Cedarburg, Wisconsin

Notes to Financial Statements

June 30, 2015

1. Summary of Significant Accounting Policies

A. Introduction

The Cedarburg School District is organized as a unified school district. The District, governed by a seven-member elected school board, is fiscally independent with taxing and borrowing powers. Services provided by the District are primary and secondary education and special education.

The financial statements of the Cedarburg School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP and used by the District are discussed below.

B. Component Units

GAAP require that these financial statements include the primary government and its component units. Component units are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the general purpose financial statements. The District has no component units, and it is not included in any other governmental reporting entity.

C. Basis of Presentation

District–Wide Statements

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues have been classified to the function where the majority of the expenditures relating to it have been incurred. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

1. Summary of Significant Accounting Policies (Continued)

C. Basis of Presentation (Continued)

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category – governmental, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. The District reports the following major governmental funds:

General Fund - The General Fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in other funds. It is also used to account for activities associated with providing educational programs for students with disabilities.

Capital Projects Fund – This fund accounts for the financial resources of the District to be used for capital expenditures related to buildings and sites.

The District accounts for assets held as an agent for various student and parent organizations in a fiduciary agency fund. The District accounts for fiduciary activities for employee post-employment benefits in an employee benefit trust fund and for scholarships in a private purpose trust fund.

D. Measurement Focus and Basis of Accounting

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific costreimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted resources may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

1. Summary of Significant Accounting Policies (Continued)

E. Deposits and Investments

The District's cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

State statutes permit the District to invest available cash balances, other than debt services funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled investment fund administered by the state investment board. Available balances in the Debt Service Fund may be invested in municipal obligations, obligations of the United States, and the local government pooled-investment fund.

F. Receivables and Payables

Property taxes are recognized as revenues in the year for which they are budgeted. The District tax levy is certified in November of the current fiscal year for collection by the taxing municipalities based on the past October 1 full or "equalized" taxable property values. The District is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. Under the Wisconsin Statutes, Washington and Ozaukee County purchase the outstanding property taxes of the District in August of each year. This statutory guarantee assures the District full collection of all property taxes within sixty days of its year end, and hence, the availability of these funds to finance expenditures of the fiscal year for which the taxes were levied.

The current portion of lending/borrowing arrangements between funds is identified as due to/from other funds. The noncurrent portion of outstanding balances between funds is reported as advances to/from other funds. Advances between funds are offset by a fund balance reserve account to indicate that they are not available for appropriation and are not expendable available financial resources. The District does not have any advances between funds.

All accounts receivable are shown at gross amounts with uncollectible amounts recognized under the direct writeoff method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

G. Interfund Transactions

Individual fund transfers and interfund receivables and payable activity for the year ending June 30, 2015 are as follows:

Purpose	Receivable Fund	Payable Fund	 Amount
Transfers:			
Non-levy fund balance	Special Revenue Trust	Community Service	\$ 100,000
Due to/from:			
Trust contributions	Employee Benefits Trust	General	\$ 117,498
Operations	General	Agency Fund	2,329
Funding of projects	General	Capital Projects	245,000
			\$ 364,827

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

1. Summary of Significant Accounting Policies (Continued)

H. Capital Assets

Capital assets are reported at historical cost or estimated historical cost. Maintenance and repair costs are charged to expenses as incurred and betterments are capitalized as assets. Upon disposal of land, buildings and equipment, a gain or loss is reflected in the statement of activities. Property and equipment and related depreciation expense are not reflected in the Governmental Fund Financial Statements.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Buildings	\$ 25,000	Straight-line	20 - 50 years
Equipment and furniture	5,000	Straight-line	5 - 20 years

I. Adoption of New Accounting Guidance

The District implemented GASB Statement 68, *Accounting and Financial Reporting for Pensions*. See Notes 7 and 14 for additional information.

J. Net Position

The GASB has established standards for reporting deferred outflows and inflows of resources and net position. Under GASB, the District classifies net position in the government wide financial statements as follows:

- Net Investment in Capital Assets includes the District's capital assets (net of accumulated depreciation) reduced by the outstanding balances of any borrowings attributable to the acquisition, construction or improvement for those assets.
- Restricted Net Position includes balances that have limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- Unrestricted Net Position the residual classification for the General Fund for balances that do not fall into the other two categories and deficit balances within other funds.

The District applies restricted resources when expense is incurred for purposes for which both a restricted and unrestricted net position are available.

K. Fund Balances

The GASB has defined the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB requires the fund balance amounts to be reported within one of the following fund balance categories:

- *Nonspendable* amounts that cannot be spent either because they are not in spendable form and cannot be converted to cash or because they are legally or contractually required to be maintained intact.
- *Restricted* amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

1. Summary of Significant Accounting Policies (Continued)

K. Fund Balances (Continued)

- Committed amounts that can be used only for specific purposes determined by a formal action of the School Board. The School Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through the same type of action it employed to previously commit those amounts.
- Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are
 intended to be used for specific purposes. Under the District's adopted policy, the School Board has
 authorized the Director of Business Services to assign funds. The intent of the assigned funds may change
 with appropriate approvals as decided by the Director of Business Services.
- Unassigned the residual classification for the General Fund (fund balance that has not been restricted, committed, or assigned to specific purposes within the General Fund), and deficit fund balances within other funds.

Order of Fund Balance Spending Policy: The District has established the following order of spending when various funding sources exist: (1) Restricted, (2) Committed, (3) Assigned, (4) Unassigned.

L. Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports a deferred outflow of resources for its deferred charge on refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The District also reports deferred outflows of resources related to the net pension asset. More detailed information can be found in Note 7.

M. Sick Pay and Vacation

Teachers are granted ten paid sick days per year, cumulative to seventy-five days. Non-teachers are granted up to ten sick days per year, cumulative to seventy-five days. Unused sick pay is not paid out upon retirement or termination of employment.

Full-time twelve-month employees are granted up to four weeks paid vacation per year. The number of vacation weeks an employee is eligible for depends on years of full-time service. Vacation days may not accumulate from year to year.

As of June 30, 2015, there is one employee that retired before the above policies were adopted. As a result, that employee is eligible for payout of unused accumulated sick days under the previous policy. The liability is reported on the government-wide financial statements. For governmental fund financial statements, the unpaid compensated absences are not expected to be paid using expendable available resources and, therefore, the liability is not reported.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

1. Summary of Significant Accounting Policies (Continued)

N. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Other Assets

Expendable supplies or noncapital items acquired for initial use in subsequent fiscal periods are recorded as prepaid expenses. Prepaid insurance represent payments made by the District for which benefits extend beyond June 30th and have not yet been earned by the recipient.

P. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported to WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. Subsequent Events

Management has evaluated subsequent events for possible recognition or disclosure through the date the financial statements were available to be distributed (November 06, 2015). Except for the information in Note 3 regarding short-term borrowing and Note 11 regarding payment on contingent liability, there were no subsequent events that required recognition or disclosure.

2. Cash and Investments

Cash and equivalents and investments as shown on the District's statement of net position are subject to the following risks:

		Amount	Risks
Cash and investments Petty cash	\$	1.350	
Demand deposits	Ψ	6,140,983	Custodial
Wisconsin Investment Series Cooperative Local government investment pool		12,111 3,445	Interest rate and custodial Custodial
Total cash and investments	\$	6,157,889	

The District's cash and equivalents are reported in the financial statements as follows:

Statement of net position: Cash and investment Statement of fiduciary net position:	\$ 5,525,587
Cash and investment Total cash and investments	\$ 632,302 6,157,889

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

2. Cash and Investments (Continued)

Investments are stated at fair value which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000. Deposits and the Wisconsin Local Government Investment Pool are also insured by the State Deposit Guarantee Fund in the amount of \$400,000 per financial institution. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual districts. Investments in the local government investment pool are covered under a surety bond issued by Financial Security Assurance, Inc. The bond insures against losses arising from principal defaults on substantially all types of securities acquired by the pool. The bond provides unlimited coverage on principal losses, reduced by any FDIC, SDGF insurance, and income on the investment during the calendar quarter a loss occurs.

Custodial Risk – Deposits: Is the risk that, in the event of a financial institution failure, the District's deposits may not be returned to the District. The District's carrying value for demand deposits and LGIP were \$6,144,428 at June 30, 2015 and the bank's carrying value was \$7,508,054, of which \$651,259 was fully insured and \$6,856,795 was collateralized by pledged securities. The District did not have deposits that were uninsured and uncollateralized. The District does not have a policy on custodial risk.

Custodial Risk – Investment: Is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a policy on custodial risk for investments.

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits the maturity of any security to no more than seven years from the date of purchase or in accordance with state statutes. The District's policy is that all investment transactions shall be planned to avoid loss of capital from market risk. All investments have a maturity date of less than one year.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The District's investment policy minimized credit risk by limiting investments to the safest type of securities. The District's policy is that all investment transactions shall be planned to avoid loss of capital from credit risk.

The LGIP does not have a credit quality rating. It is part of the State of Wisconsin Investment Fund ("SIF") and is managed by the State of Wisconsin Investment Board. The LGIP is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2015, the fair value of the District's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

2. Cash and Investments (Continued)

Wisconsin Statute 66.0603 authorizes the District to invest in the following types of instruments:

- Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association that is authorized to transact business in Wisconsin if the time deposit matures in not more than three years.
- Bonds or securities issued or guaranteed as to principal or interest by the federal government or by a commission, board, or other instrumentality of the federal government (U.S. Treasuries and U.S. agencies).
- Bonds or securities of any Wisconsin county, city, drainage district, technical college district, village, town, or school district.
- Bonds issued by a local exposition district, local professional baseball park district, or local professional stadium district created under subchapter III or IV of chapter 229 of the Wisconsin statutes or bonds issued by the University of Wisconsin Hospitals or Clinics Authority.
- Any security maturing in seven years or less of the acquisition date with either the highest or second highest rating category of a nationally recognized rating agency.
- Securities of open-end management investment companies or investment trusts if the portfolio is collateralized by bonds or securities, subject to various conditions and investment options.
- A local government investment pool, subject to certain conditions.

The District has adopted an investment policy which permits all investments allowed under the state statutes as described above.

3. Short-Term Notes Payable

Short-term notes payable at June 30, 2015 are as follows:

	Balance			Balance
June 30, 2014		Additions	Reductions	June 30, 2015
\$	\$	2,500,000 \$	2,500,000 \$	

The note was dated November 7, 2014 due March 25, 2015, with an interest rate of 0.42%. Interest for the year ended June 30, 2015 was \$4,025. The note was for general district operation. Subsequent to year end, the board approved entering into a new note in the amount of \$2,000,000.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

4. Capital Assets

Capital asset balances and activity for the year ended June 30, 2015 were as follows:

		Balance July 1, 2014	Additions	Reductions	Balance June 30, 2015
Capital assets not being depreciated:	_	<u> </u>			
Sites	\$	339,600 \$	\$	\$	339,600
Construction in progress		74,900	209,100	74,900	209,100
Capital assets being depreciated:					
Buildings and improvements		45,871,388	366,241	44,035	46,193,594
Equipment		4,237,045	128,545		4,365,590
Total capital assets being depreciated	_	50,108,433	494,786	44,035	50,559,184
Less accumulated depreciation		22,184,631	1,172,812	34,730	23,322,713
Total capital assets being depreciated, net					
of accumulated depreciation	_	27,923,802	(678,026)	9,305	27,236,471
Capital assets, net of accumulated depreciation	\$_	28,338,302 \$	(468,926) \$	84,205 \$	27,785,171

All depreciation expense was charged to unallocated depreciation.

5. Long-Term Liabilities

Long-term Liabilities of the District are as follows:

Туре	 Balance July 1, 2014	Additions	R	Reductions	Balance June 30, 2015	Amounts due within one year
G.O. Bonds	\$ 13,240,000	\$ \$	\$	1,610,000 \$	11,630,000 \$	1,620,000
G.O. Promissory Note	265,000			130,000	135,000	135,000
Retirement stipends	120,924	89,858		160,871	49,911	
Compensated absences (1)	106,373			102,133	4,240	
Total	\$ 13,732,297	\$ 89,858 \$	\$	2,003,004 \$	11,819,151 \$	1,755,000

A

(1) See note 13 for explanation of reduction in compensated absences.

Total interest paid and expensed (including accrual) during the year for the year ended June 30, 2015 on long-term liabilities was \$189,995 and \$184,920, respectively.

All general obligation debt is secured by the full faith and credit and unlimited taxing powers of the District. The long-term debt will be retired by future property tax levies and resources accumulated in the Debt Service Fund.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

5. Long-Term Liabilities (Continued)

General obligation debt at June 30, 2015 is comprised of the following individual issues:

Description	Issue Dates	Interest Rates (%)	Dates of Maturity	Balance June 30, 2015
\$2,690,000 G.O. promissory note	7/1/08	4.3 – 5.35%	3/1/17	\$ 135,000
\$13,860,000 G.O. refunding bond	12/4/12	0.35 – 2.85%	9/1/25	11,630,000
Total				\$ 11,765,000

The 2014 equalized valuation of the District as certified by the Wisconsin Department of Revenue is \$2,158,581,130. The legal debt limit and margin of indebtedness as of June 30, 2015, in accordance with Section 67.03(1)(b) of the Wisconsin Statutes follows:

Debt limit (10% of \$2,158,581,130)	\$ 215,858,113
Deduct long-term debt applicable to debt margin	11,765,000
Margin of indebtedness	\$ 204,093,113

Aggregate cash flow requirements for the retirement of long-term principal and interest on June 30, 2015 follow:

Year Ended				
June 30,		Principal	Interest	Total
2016	\$	1,755,000	\$ 174,770	\$ 1,929,770
2017		1,775,000	155,735	1,930,735
2018		1,795,000	139,760	1,934,760
2019		1,815,000	119,118	1,934,118
2020		1,845,000	92,800	1,937,800
2021-2025	_	2,780,000	 121,098	 2,901,098
Totals	\$	11,765,000	\$ 803,281	\$ 12,568,281

Certain outstanding debt of the District has been defeased by placing the proceeds of refunding bonds in irrevocable escrow accounts. The principal and interest amounts in escrow provide cash flows sufficient to pay principal and interest of the defeased bonds in accordance with the schedule of remaining payments due. Accordingly, the escrow account and the defeased bonds are not included in the District's financial statements. The balance of defeased bonds outstanding at June 30, 2015 is \$20,680,000.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

6. Fund Balances

As of June 30, 2015, fund balance components other than unassigned fund balances consist of the following:

	Nonspendable	 Restricted	-	Committed	Assigned
General Fund:					
Assets held for resale	\$ 1,506	\$ 	\$		\$
Prepaid expense	64,327				
Teacher bonus compensation				648,180	
Strategic wellness program				20,000	
HVAC district office project					186,613
Special revenue trust		117,788			
Food service:					
Prepaid expense	4,747				
Food service program		409,649			
Debt service		92,212			
Community service					53,387
Total	\$ 70,580	\$ 619,649	\$	668,180	\$ 240,000

The capital projects fund had a deficit fund balance at June 30, 2015 of \$245,000. This deficit will be financed through future revenues of the fund.

7. Defined Benefit Pension Plan

Plan Description

The Wisconsin Retirement System (WRS) is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Vesting

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011 are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011 must accrue five years of creditable service to be vested.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

7. Defined Benefit Pension Plan (Continued)

Benefits Provided

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions are required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement.

The Core and Variable annuity adjustments granted during recent years are as follows:

Core Fund Adjustment	Variable Fund Adjustment
2.6%	7%
0.8	3
3.0	10
6.6	0
(2.1)	(42)
(1.3)	22
(1.2)	11
(7.0)	(7)
(9.6)	9
4.7	25
	2.6% 0.8 3.0 6.6 (2.1) (1.3) (1.2) (7.0) (9.6)

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

7. Defined Benefit Pension Plan (Continued)

Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period (calendar year 2014), the WRS recognized \$1,209,267 in contributions from the employer.

Contribution rates as of June 30, 2015 are:

Employee Category	Employee	Employer	
General (including teachers)	6.8%	6.8%	
Executives & Elected Officials	7.7%	7.7%	
Protective with Social Security	6.8%	9.5%	
Protective without Social Security	6.8%	13.1%	

Pension Liabilities, Pension Expense and Deferred Outflows of Resources

At June 30, 2015, the District reported an asset of \$3,089,553 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2013 rolled forward to December 31, 2014. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension asset was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2014, the District's proportion was 0.1258%, which was a decrease of 0.0016% from its proportion measured as of December 31, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$1,196,483.

At June 30, 2015, the District reported deferred outflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources
Differences between expected and actual experience	\$	447,889
Changes in assumptions		
Net difference between projected and actual earnings of	n	
pension plan investments		1,496,111
Changes in proportion and differences between employe	er	
contributions and proportionate share of contributions		36,816
Employer contributions subsequent to the measurement date	е	700,656
Total	\$	2,681,472

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015

(Continued)

7. Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources (Continued)

\$700,656 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources related to pension will be recognized in pension expense as follows:

	Deferred Outflows
Year Ended June 30,	of Resources
2016	\$ 389,212
2017	389,212
2018	389,212
2019	389,212
2020	389,212
Thereafter	34,756

Actuarial assumptions

The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2013
Measurement Date of Net Pension Liability (Asset)	December 31, 2014
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.8%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%

* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2014 is based upon a roll-forward of the liability calculated from the December 31, 2013 actuarial valuation.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015

(Continued)

7. Defined Benefit Pension Plan (Continued)

Actuarial assumptions (Continued)

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-Term Real	Target
Asset Class	Rate of Return	Allocation
US Equities	5.3%	21%
International Equities	5.7	23
Fixed Income	1.7	36
Inflation Sensitive Assets	2.3	20
Real Estate	4.2	7
Private Equity/Debt	6.9	7
Multi-Asset	3.9	6
Cash	0.9	(20)

Single Discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase To Discount Rate (8.20%)	
District's proportionate share of the net pension asset	\$ 8,716,161	\$ (3,089,553)	\$ (12,413,229)	

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <u>http://legis.wisconsin.gov/lab/</u> and reference report number 15-11.

Payables to the pension plan at June 30, 2015 were \$455,480. This represents contributions earned as of June 30, 2015, but for which payment was not remitted to the pension plan until subsequent to year-end.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

8. Cedarburg School District Post-Employment Benefits

The following information conforms to the requirements of Governmental Accounting Standards Board (GASB).

Description of Plan

The District offers voluntary retirement benefits to its teachers and administrators who have met the age and years of service requirements. In addition, the District's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. Both of these result in an other postemployment benefit (OPEB), the latter commonly referred to as an implicit rate subsidy.

Employees participating in the OPEB benefit consisted of the following at July 1, 2013 the date of the latest actuarial valuation:

Retirees	60
Active	174
Number of participating employees	234

The District also provides the superintendent and teachers who have met the age and years of service requirements with a stipend (supplemental pension) benefit upon their retirement.

Funding Policy

OPEB

The District is required to provide contributions on a pay-as-you-go basis. Active plan members are not required to contribute toward these benefits. The Board of Education has established an irrevocable Employee Benefit Trust for funding the other post-employment benefit liability. Payments are expended in the general fund and the revenue is recorded in the Employee Benefit Trust Fund. For the year ended June 30, 2015, the District contributed \$1,259,782 into the trust. For fiscal year 2015, the District paid \$724,626 to eligible retirees. In addition, the District had an implicit rate subsidy that it "funded" for fiscal year 2015 in the amount of \$429,112.

Stipend (Supplemental Pension)

The District is required to provide contributions on a pay-as-you-go basis. Active plan members are not required to contribute toward these benefits. The District has not established a trust to fund these liabilities. For the year ended June 30, 2015, the District paid \$153,003 for the benefit of retirees.

Annual OPEB and Stipend Costs and Recognized Obligation

The District's annual other post-employment benefit (OPEB) and stipend costs (expenses) are calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

8. Cedarburg School District Post-Employment Benefits (Continued)

Annual OPEB and Stipend Costs and Recognized Obligation (Continued0

The following table shows the components of the District's annual OPEB and stipend costs for the year, the amount actually contributed to the plan, and changes in the District's net OPEB and stipend obligations:

	-	OPEB	 Stipend	 Total
Annual required contribution (ARC)	\$	1,288,800	\$ 83,812	\$ 1,372,612
Interest on net OPEB/stipend obligation		12,027	6,046	18,073
Adjustment to ARC		(20,136)	(7,868)	(28,004)
Annual OPEB/ stipend cost		1,280,691	81,990	1,362,681
Contributions made		(1,259,782)	(153,003)	(1,412,785)
Change in net OPEB/ stipend obligation		20,909	(71,013)	(50,104)
Net OPEB/stipend obligation – beginning of year		218,679	120,924	339,603
Net OPEB/stipend obligation – end of year	\$	239,588	\$ 49,911	\$ 289,499

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the most recent three years were as follows:

Fiscal Year Ended	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation	
2013	\$ 1,261,317	87%	\$ 217,961	
2014 2015	1,280,718 1,280,691	99% 98%	218,679 239,588	

The District's annual stipend (supplement pension costs), the percentage of annual supplemental pension costs contributed to the plan, and the net supplemental pension benefits obligation for the most recent three years were as follows:

Fiscal Year <u>Ended</u>	Annual Supplemental <u>Pension Cost</u>	Percentage of Annual Supplemental Pension <u>Costs Contributed</u>	Net Supplemental Pension <u>Obligation</u>
2013	\$ 99,097	193%	\$ 315,695
2014	79,057	346%	120,924
2015	81,990	187%	49,911

Funding Status and Funding Progress

The funded status of the OPEB and stipend benefits as of the most recent actuarial valuation date (July 1, 2013) and schedule of employer contributions can be found in the required supplementary information.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

9. Cedarburg School District Post-Employment Benefits (Continued)

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used to include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Actuarial valuation date	7/1/13
Actuarial cost method	Unit credit
Amortization method	17 (OPEB) and 30 (Stipend) year open level dollar
Remaining amortization period	17 years (OPEB), 30 years (Stipend)
Asset valuation method	Market value
Actuarial assumptions:	
Investment rate of return*	5.50% (OPEB), 5.00% (Stipend)
Medical care trend*	10.00% decreasing by 1.00% per year down to 5.00%
* implicit in this rate is an assum	ned rate of inflation of 4.00%

9. Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by referendum prior to August 12, 1993
- A referendum on or after August 12, 1993

10. Risk Management

The Cedarburg School District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers' compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles.

Cedarburg, Wisconsin

Notes to Financial Statements June 30, 2015 (Continued)

11. Commitments and Contingencies

From time to time, the District is involved in legal actions, most of which normally occur in governmental operations. Legal actions are generally defended by the District's various insurance carriers, since most claims brought against the District are covered by insurance policies. In the opinion of District management, any legal actions and any other proceedings known to exist at June 30, 2015, are not likely to have a material adverse impact on the District's financial position.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

Teachers who are employed by the District as of June 30, 2015 are eligible to receive a bonus if they return to the District the following school year. For the year ended June 30, 2015, the District estimated paying out \$496,663 in bonuses and related benefits. Actual payments made in September 2015 were \$454,947. Due to payments being contingent on the teacher returning the next fiscal year, this has not been accrued on the financial statements.

During the year ending June 30, 2015, the District entered into construction contracts for various projects totaling \$346,941. At June 30, 2015, The District has paid \$159,878 on these contracts.

12. Leases

The District leases multiple copiers. Payments on these leases for the year ended June 30, 2015 totaled \$103,967. Future minimum payments under theses leases are as follows:

Year Ended June 30,	
2016	\$ 55,551
2017	55,551
2018	42,319
2019	26,372
Total	\$ 179,793

13. Adjustment due to Change in Accounting Policy

An adjustment of \$98,159 has been made to increase June 30, 2014 net position. The adjustment was a result of the change in the vacation pay policy. The adjustment was to write off the existing liability since under the new policy accrued sick pay is no longer paid out upon termination.

14. Adjustment due to Change in Accounting Principle

An adjustment of \$5,758,241 has been made to increase June 30, 2014 net position. The adjustment was a result of implementing GASB 68. The adjustment was to establish beginning balances for the net pension asset and deferred outflows related to pensions for the WRS multi-employer defined benefit plan. The corresponding entry was as follows:

Net pension asset	\$ 5,023,883
Deferred outflows related to pensions	734,358
	\$ 5,758,241

Notes to Required Supplemental Information

June 30, 2015

Note A – Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1.D to the financial statements; however, the District adopts a budget for the special education fund which is reported with the general fund in accordance with generally accepted accounting principles. An explanation of the differences between revenues, expenditures, and other financing sources (uses) for budgetary funds on budgetary fund basis and a GAAP general fund basis is summarized below

Revenues		General Fund	Special Education Fund
Actual amounts (budgetary basis) Reclassification of special education	\$	30,743,796 \$ 1,777,223	1,777,223 (1,777,223)
Total revenues (GAAP)		32,521,019	
Expenditures			
Actual amounts (budgetary basis)		26,899,846	4,488,313
Reclassification of special education		4,488,313	(4,488,313)
Total expenditures (GAAP)	. <u> </u>	31,388,159	
Excess of Revenues Over (Under) Expenditures			
Actual amounts (budgetary basis)		3,843,950	(2,711,090)
Reclassification of special education		(2,711,090)	2,711,090
Excess of revenues over (under) expenditures (GAAF	')	1,132,860	
Other Financing Sources (Uses)			
Actual amounts (budgetary basis)		(2,711,090)	2,711,090
Reclassification of special education		2,711,090	(2,711,090)

Notes to Schedules of Expenditures of Federal and State Awards

June 30, 2015

1. General

The accompanying schedule of expenditures of federal and state awards represents the activity of all federal and state financial awards programs of the District. All federal and state awards received directly from federal and state agencies as well as federal and state financial awards passed through other government agencies are included on the schedule.

2. Basis of Accounting

The accompanying schedule of expenditures of federal and state awards is presented using the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recorded as liabilities when incurred. The District applies all GASB pronouncements in accounting and reporting.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the School Board Cedarburg School District Cedarburg, Wisconsin

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cedarburg School District (the "District") as of and for the year ended June 30, 2015, and the related notes to the financial statements which collectively comprise the District's basic financial statements and have issued our report thereon dated November 06, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND STATE SINGLE AUDIT GUIDELINES

To the School Board Cedarburg School District Cedarburg, Wisconsin

Report on Compliance for Each Major Federal and State Program

We have audited Cedarburg School District's (the "District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and State Single Audit Guidelines that that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2015. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and State Single Audit Guidelines. Those standards, OMB Circular A-133 and State Single Audit Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with *OMB Circular A-133* and which are described in the accompanying schedule of findings and questioned costs as items 2015-001 and 2015-002. Our opinion on each major federal and state program is not modified with respect to these matters.

The District's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with *OMB Circular A-133* and State Single Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2015-001 and 2015-002, which we consider to be significant deficiencies.

The District's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and State Single Audit Guidelines. Accordingly, this report is not suitable for other purposes.

November 06, 2015 Milwaukee, Wisconsin

Cedarburg, Wisconsin

Schedule of Prior Audit Findings

Year Ended June 30, 2015

Finding 2014-001

Department: U.S. Department of Health and Human Services Program Name: Medical Assistance Program Federal ID Number: 93.778

Condition and Criteria: The District claimed reimbursement for transportation and psychological services for students without an Individual Education Program (IEP) for those services. In order to be reimbursed by Medicaid, all school-based services must be identified in the student's IEP.

Effect: Reimbursement was made for transportation services for four students and psychological services for one student whose IEP did not document the need for these services.

Questioned Costs: Transportation reimbursement of \$1,750 and psychological services reimbursement of \$41.

Cause: Transportation reimbursement occurred because the provider thought the student had an IEP for these services. The psychological services were billed at the recommendation of MJ Care.

Recommendation: When submitting claims for reimbursement verify the services are approved in an IEP.

District's Response: IEP's will be reviewed by the assigned Psychologist and Special Education secretary to ensure that services are approved before submitting claims for reimbursement. The District contact for DPI is the Director of Business Services at 262-376-6114.

Status: Based on current year testing, all services billed for were required per the applicable students IEP.

Finding 2014-002

Department: United States Department of Education Program Name: Child Nutrition Cluster Federal ID Number: 10.555

Condition and Criteria: Federal award guidelines require auditors to ascertain if the required eligibility determinations were performed and the individual was determined to be eligible in accordance with the income eligibility guidelines published by the Wisconsin DPI. Per the DPI Eligibility Manual for School Meals, a district has the responsibility to verify for cause all questionable applications. For one out of the forty students sampled, the District was unable to provide support that additional verification procedures were performed on a questionable application.

Effect: The District is not in compliance with federal guidelines related to determining eligibility.

Questioned Costs: Undeterminable

Cause: The District did not conduct and document additional procedures to verify a questionable application. An application was submitted with both parents income listed and was properly denied. Five days later, the family submitted another application in which only one parent's income was listed. Both applications were retained by the District; however there is no indication that the District verified the second application was accurate.

Recommendation: We recommend that the District establish guidelines for verifying all questionable applications and that all supporting documentation used to determine if a student is eligible for free or reduced meals be retained.

District's Response: Specific guidelines have been written and will be followed by the Business Office secretary to ensure documentation for questionable applications is retained on file. The District contract for DPI is the Director of Business Services at 262-376-6114.

Status: Determining eligibility remains a problem for the District. See Finding 2015-002.

Year Ended June 30, 2015 (Continued)

C. Federal and State Award Findings and Questioned Costs

Finding 2015-001

Department: U.S. Department of Health and Human Services Program Name: Medical Assistance Program Federal ID Number: 93.778

Condition and Criteria: Following a directive issued by the Department of Public Instruction (DPI) in October 2007, all districts that are Medicaid-certified School-Based Services providers are required to have a signed and dated Consent to Bill Wisconsin Medicaid for Medically Related Special Education and Related Services, DPI form M-5, from the parent or guardian of a student with an Individualized Education Program (IEP) before claims for Medicaid services can be submitted. It was noted, in our testing, the District did not obtain a parent or guardian signed DPI form M-5 for two students in our sample of forty students. All costs claimed for these students would be unallowable.

Effect: Claiming unallowable costs may result in denial of Medicaid payment for the services.

Questioned Costs: Reimbursement of \$17,265.46

Cause: A spreadsheet with consent dates was submitted to MJ Care. Parent consent was never given for the two students in question and as such the date line for consent was left blank on the spreadsheet. Logs for all students receiving Medicaid eligible services were submitted to MJ Care for potential billing based upon eligibility. MJ Care submitted the claims based on the logs without verifying parental consent to bill had been obtained.

Recommendation: Prior to claiming costs, the District should review data to ensure they have the M-5 signed by the student's parent or guardian.

District's Response: The District uses a third-party billing administrator for SBS Medicaid services. To ensure that the billing administrator is aware of unsigned M-5 forms (parent refusals of Consent to Bill Medicaid), the Pupil Services secretary now contacts them via phone and email. This information is entered into their system immediately. The Pupil Services secretary does not provide logs to the billing administrator for students whose parents have refused consent. The District contact for DPI and the DHS is the Director of Pupil Services at 262-376-6142.

Cedarburg, Wisconsin

Schedule of Findings and Questioned Costs

Year Ended June 30, 2015 (Continued)

C. Federal and State Award Findings and Questioned Costs (Continued)

Finding 2015-002

Department: United States Department of Education Program Name: Child Nutrition Cluster Federal ID Number: 10.555

Condition and Criteria: Federal award guidelines require auditors to ascertain if the required eligibility determinations were performed and the individual was determined to be eligible in accordance with the eligibility guidelines published by the Wisconsin DPI. Per the DPI Eligibility Manual for School Meals, when a district receives an application with any other source categorical eligibility categories checked, the determining official must document eligibility for each child, prior to providing benefits. For four out of the forty-three students sampled, the District did not conduct and document verification of eligible categorical programs.

Effect: The District is not in compliance with federal guidelines related to determining eligibility for categorically eligible applications.

Questioned Costs: Undeterminable

Cause: The District did not conduct and document verification of eligible categorical programs and case numbers.

Recommendation: We recommend that the District review eligible categorical programs and establish procures for confirming the applicant's status.

District's Response: Specific guidelines have been written and will be followed by the Business Office secretary to ensure documentation for questionable applications is retained on file. The District contract for DPI is the Director of Business Services at 262-376-6114.

D. Other Issues

1.	Does the auditors' report or the notes to the financial statements include disclosure with regard to substantial doubt as to the auditee's ability to continue as a going concern?	No
2.	Does the audit report show audit issues (i.e., material noncompliance, nonmaterial noncompliance, questioned costs, material weakness, reportable condition, management letter comment, excess revenue or excess reserve) related to grants/contracts with funding agencies that require audits to be in accordance with the <i>State Single Audit Guidelines:</i>	
	Department of Public Instruction	Yes
3.	Was a Management Letter or other document conveying audit comments issued as a result of this audit?	Yes
4.	Name and signature of partner	Carrie A. Gindt
5.	Date of Report	November 06, 2015
