

WMS Student Council

The Webster Student Council is an organization conducted by students and supervised by adults. The purpose of WMS STUCO is to give students an opportunity to develop leadership by organizing and carrying out school activities and service projects. In addition to planning events that contribute to school spirit and building community, the STUCO is also the voice of the student body. They work hard to share student ideas, interests and concerns. All students are encouraged to participate.

Congratulations to the 2021-2022 Webster STUCO Executive Board!
